

Intermediate Biologist Opportunity

Our Story

Strategic Natural Resource Consultants is one of the most highly regarded natural resource consulting firms on the West Coast. Strategic adopts an innovative and resourceful model of problem solving that can be seen in our technical expertise, project management and planning. This belief in resourceful thinking carries into our implementation as well. We employ dynamic on-the-ground professionals across BC. Our personnel are industry leaders in resource and land management, professional forestry, construction support services, environmental science, geomatics, and remote site project development.

General Responsibilities:

- » Implement health & safety practices in day to day activities
- » Support or lead aquatic, marine, or terrestrial assessments
- » Prepare proposals and reports for a range of activities including monitoring programs, environmental assessments, and management plans
- » Perform and direct data collection and analysis
- » Provide mentorship to junior staff
- » Participate in team and multidisciplinary project meetings
- » Network and integrate with colleagues from multiple offices
- » Able to multi-task and delegate

Qualifications:

- » University degree in Biology, Ecology, or Environmental Sciences
- » Minimum 5 years related field experience or equivalent education & experience
- » Registered or eligible for registration with a professional association
- » Experience with technical writing and communication
- » Knowledge and experience with Environmental Impact Assessments
- » Experience leading and completing field data collection programs
- » Experience with managing large, multidisciplinary projects
- » Environmental consulting experience an asset

We pride ourselves on maintaining a **safe, respectful** and **fun** work environment that promotes values such as teamwork, partnerships, professional accountability, adaptation and work/life balance. All applicants must be enthusiastic workers and learners who thrive and excel in a team environment. Your dedication to workplace health & safety and possessing a positive attitude are critical to your role with our team.

We offer competitive compensation, including a comprehensive benefits package for full-time employees, career and personal development opportunities, and an employee mentoring program.

Applications will be accepted until Nov 24, 2017.

Please apply with confidence by forwarding your resume and cover letter by e-mail (as an attachment in PDF or MS Word format with "Intermediate Biologist Application" in the e-mail subject line) to employment@snrc.ca.

We would like to thank all applicants for their interest; however, only those considered for an interview will be contacted. For more information regarding this opportunity, please e-mail above address.
