

Veterinarian

Reporting to the Director, Fish Health and Food Safety, the Veterinarian for Mowi Canada West will use veterinarian training to apply the principles of biosecurity, preventative health management, production data analysis, client relationships and food safety assurance to help drive continual improvement in all aspects of production and processing.

Key Responsibilities:

- Maintaining and improving biosecurity in all areas of Production and Operations
- Maintaining and improving routine fish health monitoring and surveillance
- Developing strategies for disease and parasite management and avoidance
- Analysis of fish health and production data to identify areas in need of improvement and develop strategies or R&D projects to address
- Ensure Mowi remains compliant with all Fish Health regulatory requirements
- Ensure Mowi is able to meet third party certification body Fish Health requirements

Requirements:

Applicants must have the Doctor of Veterinary Medicine (DVM) degree from an accredited program which allows licensing in BC. Previous experience in salmon aquaculture is preferred but not required.

Closing Date: June 3rd 2019

We offer a wide range of benefits including competitive wages, a comprehensive extended health care benefits package, annual incentive bonus, pension plan, and more. At Mowi, you will find a dynamic working environment, a passionate workforce, and a great opportunity for personal and professional development. This is a challenging position in the world's largest salmon company with a possibility to shape the future of the Aquaculture industry.

To be considered for this opportunity, please submit your resume and cover letter online at:
